DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 13-20 are rejected under 35 U.S.C. 102(e) as being anticipated by Braunlich et al.

The patent to Braunlich et al. discloses a card game for two or more players comprising at least two decks of cards 20, one for each player. Each deck comprises a plurality of cards 22 including a plurality of battle cards 100, a plurality of effect indication cards 200, and a plurality of cost payment cards 300. The battle cards 100 each having at least one attack power and defense power 112 indicated thereon. The battle cards also have an indication of additional attack power 110, col. 9, lines 17-30. The battle cards also have a symbol 114 thereon indicating the cost required to place

the battle card on a play field, col. 7, line 66 to col. 8, line 2. The cost payment cards 300 have a symbol 304 thereon indicating that each card belongs to one of a plurality of category groups. The cost payment cards also have a description 306 thereon indicating effect to be brought into play. The effect indication cards have effect 206 indicated thereon that is brought into play when used.

To play Braunlich et al. game, a player draw a cost payment card from his/her deck and places it on the table. This then dictates the location of the game. Then each player draws six cards from the top of the deck to make a starting hand, col. 7, lines 33-40. Thus, each player uses said cost payment card to pay cost and drawing one or more cards from the deck. Each player drawing one or more battle cards from the hand of cards and places them on a play field, col. 7, lines 44-52. If a battle card is drawn and placed on the play field, the additional attack power 110 indicated on the card is added to the attack power 112 indicated on the card, and the sum value of the attack power and additional power is used in a battle, col. 9, line 26-38 and col. 9, lines 60-67.
